Subject: 2013-051 - LEAD CLERK CLOCK OFFICE role updated for 1314 Entry and 1314A Entry Modules...

To TACS Coordinators...

This is an FYI...

The LEAD CLERK CLOCK OFFICE role was recently updated as follows:

- Added access to the 1314 Entry Module (TAC300T0). Default for new users set to Qry. Existing users set to Qry.
- Added access to the 1314A Entry Module (TAC310T0). Default for new users set to Qry. Existing users set to Qry.
- Added the ability to save an entry in the Clock Ring Editor provided the Upd column is checked in User Maintenance. If current users access is set to Upd, the user now has the ability to save an entry in the Clock Ring Editor. Default for new users remains Qry.
- Added access to the Future tab of the Clock Ring Editor (TAC800T2).
- Removed access to the Job Asgn tab of the Clock Ring Editor (TAC800T3).

Thanks
Joe Healey
